Letter of Equivalence

Dear Mr. Stibler,

Hereby the Accreditation Body of Deutscher Kalibrierdienst (DKD), confirms that the Laboratory for Metrology of ZAG Ljubljana, the Slovenian National Building and Civil Engineering Institute, was accredited by DKD within the period between 1999-08-30 and 2007-10-31.

In the course of this period *Slovenian Accreditation (SA)*, where ZAG intends to continue the maintenance of its accreditation, has developed into a recognized accreditation body, with the same status as other similar bodies in Europe.

Both accreditation bodies, SA and DKD, are signatories of the multilateral agreement (MLA) for calibration of the European Co-operation for Accreditation (EA).

A calibration certificate issued by an accredited body in one country is recognised as equivalent to a certificate issued by an accredited body in any of the countries signatories to the EA MLA. Accreditation bodies recognise that they operate in an equivalent way and that they deliver equivalent accreditations, providing the same level of competence and confidence.

Sincerely yours,

by proxy

Dipl. Ing. Michael Schaller
Head of DKD
